MULTI-DIMENSIONAL PROFILE

Intelligence Radar & Domain Analysis

A visual map of Saanvi Gurjar's relative strengths across Gardner's 9 intelligence domains

Key Profile Insight
Saanvi Gurjar presents a strong Analytical Thinker profile with a score of 74%. Demonstrates exceptional capacity in Interpersonal Intelligence (83%) and Scientific Investigation. Highly recommended to pursue pathways in Medical & Life Sciences and Science (PCB / Medical).

● WHAT SAANVI GURJAR DOES BEST

Core Strengths & Unique Potential

Six dominant strengths that define Saanvi Gurjar's learning identity and future potential

STRENGTH 01**Scientific Aptitude**

Saanvi Gurjar demonstrates outstanding scientific aptitude (89%). Natural curiosity for cause-and-effect, empirical hypothesis testing, and natural laws.

Why High: Scored in the top percentile (89%) in Aptitude evaluation.

APTITUDE · ADVANCED PROBLEM SOLVING · SKILL COMPETITIONS

STRENGTH 02**Creativity & Originality**

Saanvi Gurjar demonstrates outstanding creativity & originality (89%). Generates novel, unconventional ideas and approaches problems with imaginative flair.

Why High: Scored in the top percentile (89%) in Aptitude evaluation.

APTITUDE · ADVANCED PROBLEM SOLVING · SKILL COMPETITIONS

STRENGTH 03**Spatial Aptitude**

Saanvi Gurjar demonstrates outstanding spatial aptitude (88%). Outstanding 3D mental rotation, spatial orientation, and visual mapping capability.

Why High: Scored in the top percentile (88%) in Aptitude evaluation.

APTITUDE · ADVANCED PROBLEM SOLVING · SKILL COMPETITIONS

STRENGTH 04**Abstract Reasoning**

Saanvi Gurjar demonstrates outstanding abstract reasoning (86%). Excels at identifying relationships among complex geometric patterns, shapes, and non-verbal symbols.

Why High: Scored in the top percentile (86%) in Aptitude evaluation.

APTITUDE · ADVANCED PROBLEM SOLVING · SKILL COMPETITIONS

STRENGTH 05**Problem Solving**

Saanvi Gurjar demonstrates outstanding problem solving (86%). Structured approach to breaking down complex challenges into manageable actionable components.

Why High: Scored in the top percentile (86%) in Aptitude evaluation.

APTITUDE · ADVANCED PROBLEM SOLVING · SKILL COMPETITIONS

STRENGTH 06**Empathy**

Saanvi Gurjar demonstrates outstanding empathy (86%). Understanding and sharing the feelings and perspectives of peers and team members.

Why High: Scored in the top percentile (86%) in Soft Skill evaluation.

SOFT SKILL · PEER MENTORING · GROUP LEADERSHIP

Counsellor's Strategic Guidance

Saanvi Gurjar presents a strong Analytical Thinker profile with a score of 74%. Demonstrates exceptional capacity in Interpersonal Intelligence (83%) and Scientific Investigation. Highly recommended to pursue pathways in Medical & Life Sciences and Science (PCB / Medical).

● AREAS TO DEVELOP

Growth Opportunities & Improvement Plan

Targeted growth opportunities identified from score analysis — each is fully actionable

Scientific Aptitude

Emerging · Score: 61%

Context & Growth Need: Saanvi Gurjar's current score in Scientific Aptitude is 61%. Needs structured practice to build confidence.

Action Plan:

- Engage Saanvi Gurjar in weekly exercises targeting scientific_apptitude
- Use visual/auditory learning aids to strengthen retention in scientific aptitude
- Review progress with mentor every month

Timeline Indicator: Immediate (0–3 Months)

Logical-Mathematical Intelligence

Emerging · Score: 63%

Context & Growth Need: Saanvi Gurjar's current score in Logical-Mathematical Intelligence is 63%. Dislikes ambiguous, unstructured tasks that lack objective rules or logical verification.

Action Plan:

- Engage Saanvi Gurjar in weekly exercises targeting Logical-Mathematical
- Use visual/auditory learning aids to strengthen retention in logical math
- Review progress with mentor every month

Timeline Indicator: 3–6 Months

Resilience

Emerging · Score: 63%

Context & Growth Need: Saanvi Gurjar's current score in Resilience is 63%. Saanvi Gurjar is currently developing higher confidence in Resilience.

Action Plan:

- Provide opportunities for Saanvi Gurjar to practice resilience in supportive group settings
- Encourage daily reflection and self-assessment
- Celebrate incremental improvements in classroom or family discussions

Timeline Indicator: 6–12 Months

● CAREER FITMENT ANALYSIS

Top Career Recommendations

Compatibility scores based on Saanvi Gurjar's cognitive profile, personality type, and skills

RANK 1**81%****Medical & Life Sciences****Sub-Tracks:** MBBS · BDS · Biotechnology

Why Matched: Strong scientific curiosity (89%) combined with observational precision (84%) underpins medical & clinical excellence.

RANK 2**76%****Design & Innovation****Sub-Tracks:** UI/UX · Architecture · Industrial Design

Why Matched: Dominant visual-spatial processing (67%) and high creative originality (89%) make design & spatial fields a top match.

RANK 3**74%****Business & Management****Sub-Tracks:** Corporate Strategy · Product Management · Marketing

Why Matched: Strong interpersonal awareness (83%) and strategic decision-making (84%) enable effective team & business management.

RANK 4**74%****Education & Social Work****Sub-Tracks:** Teaching · Child Psychology · Special Education

RANK 5**74%****Public Administration & Services****Sub-Tracks:** IAS / Civil Services · IPS / Police · Diplomacy (IFS)

Why Matched: Strategic planning capacity (83%) paired with public leadership (64%) suits administrative policy & governance roles.

RANK 6**74%****Emerging Tech & AI****Sub-Tracks:** AI Engineering · Cybersecurity · Cloud Architecture

Why Matched: High logical math (63%) and innovative tech mindset (86%) point toward cutting-edge AI and software architecture.

Primary Career Recommendation: Saanvi Gurjar is best aligned with **Medical & Life Sciences** and **PCB**. Focus on building domain skills in this cluster while maintaining core academic excellence.

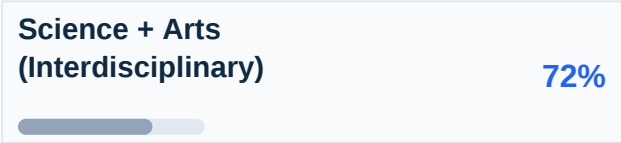

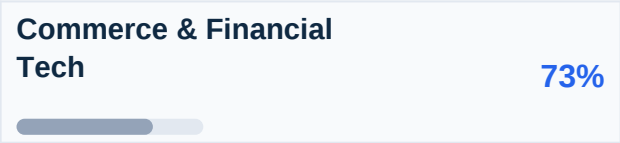

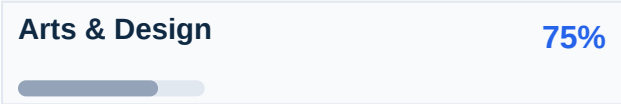

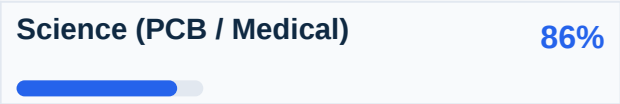

● ACADEMIC DIRECTION

Recommended Stream & Path

Weighted stream recommendation for Saanvi Gurjar based on test performance

Science (PCB / Medical)
Match Score: 86% · Confidence: 99%

Focuses on Biology, Chemistry, Biotechnology, and Life Sciences. Aligns with Scientific Aptitude (89%).

● LONG-TERM VISION

Educational Roadmap (5-Phase Journey)

Saanvi Gurjar's structured 5-phase journey through higher education and career launch

PHASE 1 · IMMEDIATE (CURRENT STAGE)

Foundation & Discovery Current Class (Class 9) · Foundational Skills**Core Skill Building**

Focus on foundational skills aligned with Medical & Life Sciences

Exploratory Projects

Hands-on projects to test intrinsic interest

Reflective Journaling

Weekly habit of documenting ideas & progress

Logic & Problem Solving

Daily puzzles, games, or skill challenges

Extracurriculars

School club participation & team building

Careeron Progress Check

Annual reassessment to track score growth

PHASE 2 · MIDDLE STAGE

Exploration & Deepening Class 7 – 8 · Skill Acceleration**Subject Electives**

Choose relevant optional subjects & club activities

Competitions

Participate in inter-school Olympiads, art contests, or hackathons

Portfolio / Project Log

Assemble early work samples and project records

Digital Literacy

Master digital tools relevant to target stream

Reading List

Read introductory books in field of interest

Industry Exposure

Visit studios, labs, or attend career webinars

PHASE 3 · SECONDARY STAGE

Stream Confirmation & Board Focus Class 9 – 10 · Stream Selection**Stream Finalisation**

Confirm stream choice aligned with Medical & Life Sciences

Board Exam Prep

Class 10 Board exam conceptual mastery

Entrance Awareness

Map required entrance exam syllabus & criteria

Shadowing / Mentorship

Connect with an industry professional or mentor

CAREERON Review

Class 10 Psychometric Stream Confirmation Assessment

Portfolio Development

Build structured portfolio or academic record

PHASE 4 · SENIOR STAGE

Targeted Entrance & College Prep Class 11 – 12 · Competitive Exams**Entrance Exam Prep**

Dedicated prep for Medical entrance exams

College Shortlist

Shortlist top 8-10 target colleges and cutoff trends

Mock Testing

Regular timed full-length mock examinations

Class 12 Boards

Balance board syllabus with entrance exam focus

Application Filing

Submit timely entrance exam and college applications

Counseling & Interviews

Prepare for college interview panels & counseling

PHASE 5 · HIGHER ED & LAUNCH

Higher Education & Career Launch Undergraduate Degree & Beyond

Degree Program

Enroll in top-tier UG program in Medical & Life Sciences

Internships

Secure real-world industry internships during UG

Specialization

Identify sub-specialty or higher research focus

Professional Network

Join industry associations & alumni networks

Career Launch

Transition into professional practice or startup

Lifelong Learning

Continuous skill upgrading in emerging tech & trends

● HIGHER EDUCATION PLANNING

Top Colleges & Institutes Directory

Aspirational institutions aligned with Saanvi Gurjar's target career path

TOP INSTITUTIONS FOR MEDICAL

1. AIIMS – All India Institute of Medical Sciences

Location: New Delhi / Bhopal / Jodhpur

Entrance Exam: NEET UG · **Highlight:** Apex medical institution in India

2. Christian Medical College (CMC)

Location: Vellore, Tamil Nadu

Entrance Exam: NEET UG · **Highlight:** World-renowned teaching hospital

3. JIPMER

Location: Puducherry

Entrance Exam: NEET UG · **Highlight:** Premier medical research institute

4. Kasturba Medical College (KMC)

Location: Manipal, Karnataka

Entrance Exam: NEET UG · **Highlight:** Top private medical university

● 21ST CENTURY READINESS

Future Skills to Build

Key competencies that will matter most for Saanvi Gurjar's career profile

CREATIVE SKILLS

- Visual Design & Prototyping · **Essential**
- Digital Storytelling · **High**
- 3D / Spatial Design · **Medium**
- Content Strategy · **Medium**

TECH SKILLS

- Coding / Python Logic · **High**
- AI Tool Prompting · **Essential**
- Data Visualisation · **High**
- Tech Systems Thinking · **Explore**

HUMAN SKILLS

- Persuasive Communication · **Essential**
- Cross-cultural Collaboration · **Essential**
- Adaptive Resilience · **High**
- Critical Ethics · **High**

Why Future Skills Matter for Saanvi Gurjar

By the time the student enters higher education, AI automation will transform routine jobs. Developing a blend of high human empathy, creative logic, and tech fluency ensures maximum long-term career resilience for a Analytical Thinker profile.

● FOR PARENTS & GUARDIANS

Parent Action Plan & Roadmap

Structured, time-bound actions for parents to support Saanvi Gurjar at every stage

Your Role in Saanvi Gurjar's Journey

Parents are key career guides. This plan provides clear, time-bound actions to support Saanvi Gurjar's development at every stage.

PHASE 1 · IMMEDIATE (0–3 MONTHS)

Nurture Top Strengths & Support Weak Areas

- Encourage Saanvi Gurjar's natural strength in Scientific Aptitude through dedicated weekly activities
- Address Scientific Aptitude by implementing the suggested 15-minute daily practice routine
- Set up a quiet, structured study & creative space at home
- Provide books and tools related to Creativity & Originality
- Schedule a 30-minute monthly family reflection time to discuss learning goals

PHASE 2 · SHORT TERM (3–6 MONTHS)

Build Habit Routines & Club Exposure

- Enroll Saanvi Gurjar in school or community clubs matching Scientific Aptitude
- Introduce structured activities to strengthen Logical-Mathematical Intelligence
- Participate in one inter-school competition or community exhibit
- Conduct weekend learning visits to science museums, libraries, or art galleries
- Encourage peer study sessions and group project leadership

PHASE 3 · MEDIUM TERM (6–12 MONTHS)

Expand Horizons & Track Growth

- Help Saanvi Gurjar build an early physical or digital portfolio of work
- Attend a career exposure workshop or webinar in target field
- Review progress against baseline assessment scores in Scientific Aptitude
- Register for CareerON annual progress assessment
- Consult with school teachers to align classroom goals with test insights

A Note from Your CareerON Counsellor

Saanvi Gurjar's highest potential lies in leveraging strengths in Scientific Aptitude while giving gentle, consistent support to build Scientific Aptitude. Avoid forcing a narrow stream early—keep exploration broad and curiosity active.
